

# Why You Need a PI Law Firm & Attorney

## We Only Get Paid If You Win

As a personal injury law firm we operate off a contingency fee, which means we only get paid if we win your case. That means we have extra motivation to win your case because no one wants to work for free. We don't stop until we've reached the settlement you deserve!

## Larger Settlements

The insurance companies don't feel any obligation to get you a large settlement. Their goal is to get you the lowest offer possible and use your own words against you to discredit your claim. Having an attorney immediately gives you someone in your corner that won't accept low-ball offers and acts in your best interests.

## Handling Paperwork & Medical Care

Imagine handling paperwork and setting up your own medical care while trying to heal from your injuries. It can become overwhelming and daunting on your own. Mora Law is here to guide you throughout each step of the process. We ensure all your paperwork and medical care is in order without you every having to worry about it.
